

Breathe New Life into Old Rechargeable Batteries!

Simultaneously charge both AA and AAA batteries
in different modes at the same time!

Includes Multiple FREE Accessories!

Works with all
NiCd & NiMH
AA/AAA Batteries

Take It
Wherever
You Go!

• Durable Travel Bag

• AC/DC Adapter

• 4-C Size
Battery Adapters
4-D Size
Battery Adapters

• 4-AA NiMH Rechargeable Batteries
4-AAA NiMH Rechargeable Batteries

• Charge

Charging automatically begins at 200mA (the optimal setting for prolonging battery life), or select 500, 700, 1000, 1500 or 1800 mA settings for faster charging times

• Discharge

Reduce memory effect by one discharge/ recharge cycle.

• Refresh

Batteries will be discharged and recharged 20 cycles or until batteries are refreshed to maximum capacity.

• Test

Batteries are charged to full capacity, discharged completely to measure capacity for display in mAh or Ah, then recharged to full capacity.

Displays information for: Voltage, Current Charge, Time Elapsed and Accumulated Capacity

Display indicates: Charge, Discharge, Refresh and Test

All Modes

- Automatically switches to Trickle Charge at the end of last charging cycle.
- Includes Overheat detection to protect over-charging
